All eligible cases	Government Premium Processing	None	n/a	\$2805**	n/a

All government fee checks must be made payable to the U.S. Department of Homeland Security.

+ Employee is responsible for filling out form on their own.

* IA fees, \$600.00 Asylum fee, and \$500.00 Anti-Fraud fee must be paid by the sponsoring department *and may be paid from any type of account; however restricted grant accounts require additional documentation*. Three separate checks are required for the USCIS fees (\$780, \$600, & \$500).

** Premium Processing Fee may be paid by the department if the need for expediting the application is for the benefit of the department. If the employee chooses to pay this fee they may do so provided this does not cause the yearly salary to fall below the prevailing wage for this position.

Except for the premium processing fee, these required government filing fees must be paid by the sponsoring department as they are considered by the Department of Labor to be a cost of doing business.

Note that TTU/IA fees will increase by approximately 2 percent each year.
